Question: 85
Which format is appropriate for exporting map documents that require vector layers to remains intact for further editing in another application?

A. AI
B. BMP
C. PNG
D. GIF
E. JPEG

Answer: A

Question: 86
An ArcGIS user is working on a map of a province. The user wants to create an inset to identify the province within the entire country. Which map element should the user employ?

A. Extent rectangle
B. Data Driven Pages
C. Reference scale
D. New graphics laver

Answer: A

Question: 87
Using ArcCatalog, an ArcGIS user plans to use the Export to Geodatabase option to export a feature class with one spatial reference into a feature dataset with a different spatial reference. How can this be accomplished while maintaining the accuracy of the data?

A. reproject the feature class then export
B. export the feature class then reproject the output
C. export the feature class and allow on the fly projection
D. assign spatial reference of feature class to Unknown then export

Answer: D

Question: 88
What can be used to ensure that an .mxd file can be opened in a previous version of ArcGIS?

A. Save As command
B. Create Map Package
C. Export Map
D. Save a Copy command

Answer: B

Question: 89
Which Layer Properties tab displays the coordinate system for a layer?

A. Source
B. General
C. Display
D. XY Coordinate System

Answer: B

Question: 90
An ArcGIS user has Road Lines and City Polygons feature classes and is selecting roads that are division lines between cities. Starting with all Road Lines features selected, which spatial query will keep only the road lines dividing cities selected?

A. select features from Road Lines that are identical to City Polygons
B. select from the currently selected features in City Polygons that completely contain the Road Lines
C. select from the currently selected features in Road Lines that are identical to City Polygons
D. remove from the currently selected features in City Polygons that are within a distance of Road Lines with a search distance of 100 feet

Answer: A

Question: 91
An ArcGIS user is collecting climate data, and wants to create a graph showing wind direction at different weather stations. Which type of graph should be used to display this data?

A. bar
B. histogram
C. area
D. polar
E. scatter plot

F. bubble

Answer: A

Question: 92
What is the result of applying a relate in ArcMap to a stand-alone table and a layer attribute table?

A. It will define the relationship between them
B. It will append the associated data to the layer's attribute table
C. It will append the layer's attribute table to the associated data
D. It will create a new feature class containing the layer's attributes and associated data

Answer: D

Question: 93
A data frame m ArcMap is displaying layers from several different coordinate systems in a worldwide geographic coordinate system. There are several geographic coordinate system transformations listed in the Geographic Coordinate Systems Transformations dialog box. One of the transformations being used is inappropriate and must be changed. How can the ArcGIS user change the transformation?

A. open the Layer Properties dialog box for each layer using the transformation and change the transformation for the layer
B. select Transformations from the main menu in ArcMap and change the transformation for the map document
C. open the Data Frame Properties dialog box and change the transformation for the data frame
D. for each data source using the transformation change the transformation in the Catalog window and then reload the

Answer: A

Question: 94
What are three ways for an ArcGIS user to create a new file geodatabase in ArcGIS Desktop? (Choose three)

A. create new file geodatabase in ArcCatalog
B. use the New File Geodatabase tool from the Editor toolbar
C. use the Command Line window
D. Create File GDB tool in ArcToolbox

E. create file geodatabase in Windows Explorer

Answer: E, A, D

Question: 95
An ArcGIS user needs to provide a person outside the user's organization a layer file along with its data. How can this be accomplished in ArcGIS Desktop?

A. use the Export as XML Workspace Document tool in ArcCatalog
B. use the Save as Layer tool in ArcMap
C. use the Export as Layer tool in ArcCatalog
D. use the Create a Layer Package tool in ArcMap

Answer: A

Question: 96
An ArcGIS user is analyzing a map containing several high quality data layers. The layers are defined in several different coordinate systems in the same data frame. However, due to the high quality of the data, all features line up with each other almost exactly. When the user adds a new dataset all features appear to shift to the north by a nearly identical distance. The new dataset is assigned to a different coordinate system than any of the layers that line up correctly. What are two possible reasons for the features shifting?

A. ArcMap's on-the-fly projection is introducing random error in the new dataset
B. The new dataset is assigned to the wrong projected coordinate system
C. The wrong geographic transformation is used to protect the new dataset
D. The new datasets geometry is more accurate than the other layers in the map
E. The map projection required to project the new dataset is outdated

Answer: D, B

KILLEXAMS.COM

Killexams.com is a leading online platform specializing in high-quality certification exam preparation. Offering a robust suite of tools, including MCQs, practice tests, and advanced test engines, Killexams.com empowers candidates to excel in their certification exams. Discover the key features that make Killexams.com the go-to choice for exam success.

Exam Questions:

Killexams.com provides exam questions that are experienced in test centers. These questions are updated regularly to ensure they are up-to-date and relevant to the latest exam syllabus. By studying these questions, candidates can familiarize themselves with the content and format of the real exam.

Exam MCQs:

Killexams.com offers exam MCQs in PDF format. These questions contain a comprehensive collection of questions and answers that cover the exam topics. By using these MCQs, candidate can enhance their knowledge and improve their chances of success in the certification exam.

Practice Test:

Killexams.com provides practice test through their desktop test engine and online test engine. These practice tests simulate the real exam environment and help candidates assess their readiness for the actual exam. The practice test cover a wide range of questions and enable candidates to identify their strengths and weaknesses.

Guaranteed Success:

Killexams.com offers a success guarantee with the exam MCQs. Killexams claim that by using this materials, candidates will pass their exams on the first attempt or they will get refund for the purchase price. This guarantee provides assurance and confidence to individuals preparing for certification exam.

Updated Contents:

Killexams.com regularly updates its question bank of MCQs to ensure that they are current and reflect the latest changes in the exam syllabus. This helps candidates stay up-to-date with the exam content and increases their chances of success.
