### Question: 15

In Huawei Cloud EI Enterprise Intelligence, which basic platform services are included? (Multiple Choice)

- A. Machine learning
- B. Deep learning
- C. Graph engine
- D. Batch processing

**Answer: A,B,C,D**

### Question: 16

The activation function plays an important role in the neural network model learning and understanding of very complex problems. The following statement about the activation function is correct.

- A. Activation functions are linear functions
- B. Activation functions are non-linear functions
- C. The activation function is partly a nonlinear function, partly a linear function
- D. Most of the activation functions are nonlinear functions, and a few are linear functions

**Answer: B**

### Question: 17

PyTorch Which of the following functions does not have?

- A. Inline keras
- B. Support dynamic graph
- C. Automatic derivative
- D. GPU accelerate

**Answer: A**

### Question: 18

What is wrong description of the Python module?

- A. The Python module is a Python file that ends with .py and contains Python object definitions and Python statements.
- B. The Python module allows you to logically organize your Python code snippets.
- C. Python modules can define functions classes and variables but the module does not contain executable code
- D. Assigning relevant code to a module can make your code better and easier to understand.

**Answer: C**

### Question: 19

What are the commonly used activation functions? (Multiple Choice)

- A. sigmoid
- B. tanh
- C. relu
- D. danish

**Answer: A,B,C**

**Question: 20**

What are the Python language data types? (Multiple Choice)

- A. numbers
- B. string
- C. list
- D. tuple
- E. dictionary

**Answer: A,B,C,D,E**

**Question: 21**

When the voice recognition service is successfully called, which field is the recognition result stored in?

- A. result
- B. content
- C. data
- D. text

**Answer: A**

**Question: 22**

What does factors that promote the development of artificial intelligence not include?

- A. Big data
- B. Computing ability
- C. Algorithm theory
- D. Block chain

**Answer: D**

**Question: 23**

The image data of the passport recognition service is not needed base64 Coded.

- A. TRUE
- B. FALSE

**Answer: B**

**Question: 24**

The loss function of logistic regression is the cross-entropy loss function.

- A. TRUE
- B. FALSE

**Answer: A**

**Question: 25**

Pytorch Which company launched it first?

- A. Baidu
- B. Google
- C. Facebook
- D. Huawei

**Answer: C**

**Question: 26**

It is fine to pass in only one image when calling the face comparison service.

- A. TRUE
- B. FALSE

**Answer: B**

**Question: 27**

Which of the following options is not the- session mode used by Tensorflow?

- A. Explicitly call the session to generate function
- B. Explicitly call the session to close function
- C. Through the Python context manager
- D. Multiple POST queries

**Answer: D**

**Question: 28**

twenty two. Among machine learning algorithms, which of the following is not unsupervised learning?

- A. GMM
- B. Xgboost
- C. Clustering
- D. Association rules

**Answer: B**

**Question: 29**

Which of the following is not included in the recurrent neural network usage scenario?

- A. Machine translation
- B. Speech recognition
- C. Image style migration
- D. Text generation

**Answer: C**

**Question: 30**

What are the characteristics of Python code? (Multiple Choice)

- A. leg1b1lty
- B. Simpl1c1ty
- C. Rapidity
- D. Scalab1hty

**Answer: A,B,D**

Killexams.com is a leading online platform specializing in high-quality certification exam preparation. Offering a robust suite of tools, including MCQs, practice tests, and advanced test engines, Killexams.com empowers candidates to excel in their certification exams. Discover the key features that make Killexams.com the go-to choice for exam success.

## Exam Questions:

Killexams.com provides exam questions that are experienced in test centers. These questions are updated regularly to ensure they are up-to-date and relevant to the latest exam syllabus. By studying these questions, candidates can familiarize themselves with the content and format of the real exam.

## Exam MCQs:

Killexams.com offers exam MCQs in PDF format. These questions contain a comprehensive collection of questions and answers that cover the exam topics. By using these MCQs, candidate can enhance their knowledge and improve their chances of success in the certification exam.

## Practice Test:

Killexams.com provides practice test through their desktop test engine and online test engine. These practice tests simulate the real exam environment and help candidates assess their readiness for the actual exam. The practice test cover a wide range of questions and enable candidates to identify their strengths and weaknesses.

## Guaranteed Success:

Killexams.com offers a success guarantee with the exam MCQs. Killexams claim that by using this materials, candidates will pass their exams on the first attempt or they will get refund for the purchase price. This guarantee provides assurance and confidence to individuals preparing for certification exam.

## Updated Contents:

Killexams.com regularly updates its question bank of MCQs to ensure that they are current and reflect the latest changes in the exam syllabus. This helps candidates stay up-to-date with the exam content and increases their chances of success.
