Designing Multi-Site HPE Storage Solutions

ORDER FULL VERSION

<https://killexams.com/pass4sure/exam-detail/HPE0-J58>

QUESTION 53

A customer has two HPE Nimble arrays that are replication partners. The replication schedule is set to every hour.

After replication completed at 1:00pm, the array at the primary site suffers a power failure.

Applications were failed over successfully by the administrators, and production continued on the secondary site array as designed. At 3:00pm, the power was restored to the primary site array.

What does the administrator need to do first to restore services in the primary site?

- A. Perform handover from the secondary array to the primary array
- B. Create a new replication partnership from the primary array to the secondary array
- C. Create a new replication partnership from the secondary array to the primary array
- D. Perform a failback of the existing replication partnership to the primary array

Answer: A

QUESTION 54

You completed the HPE Nimble storage replication partnership in a customer environment.

When you test the network connection from the primary partner to the secondary partner, the test fails; when you test the connection from the secondary to the primary partner, the test is successful. What is the most likely cause of the failure?

- A. The secondary partner name is not configured properly
- B. The secondary array network ports are misconfigured
- C. The test can only be performed from the secondary array
- D. The primary partner name is not configured properly

Answer: A

QUESTION 55

You are starting an assessment to design a new multi-storage environment for a customer. You have collected data on all the current arrays using SAF collector. What should be the next step in your design process?

- A. Open the .zip file with NinjaSTARS
- B. Import the .zip file into OCA
- C. Send the .zip file to OCAImport@hpe.com
- D. Upload the .zip file to the SAF Portal

Answer: A

QUESTION 56

You are proposing StoreOnce as a new backup target.

Which features should you emphasize that will help the customer protect and recover data from external attacks on local data? (Select two.)

- A. StoreOnce Catalyst stores are only accessible via the API
- B. StoreOnce has firewalls to protect the repositories
- C. StoreOnce is immune from ransomware
- D. StoreOnce has malware protection
- E. StoreOnce has encryption of data at rest and data in-flight

Answer: CE

QUESTION 57

A customer wants to implement a disaster recovery plan for their current HPE 3PAR array data. They have obtained a remote site 10km away their primary site. They have performed bandwidth testing, and have confirmed their RTT is approximately 100ms. The customer needs to provide data replication to assure the best data availability they can achieve. Which synchronization method meets their needs?

- A. Asynchronous Streaming
- B. Asynchronous Periodic Remote Copy
- C. Synchronous Remote Copy
- D. Peer Persistence

Answer: B

QUESTION 58 A customer is expecting rapid growth of their data storage needs on their HPE Nimble arrays. Which HPE tool should you recommend to best assist with capacity planning?

- A. NinjaStars for Nimble
- B. NinjaCrawler
- C. InfoSight
- D. One Config Advanced

Answer: D

QUESTION 59

A customer wants to enable an automated failover for their two existing HPE 3PAR solutions, which are located in two different sites. Each solution has an All-inclusive Single-System Software license. Which component is required to enable this function?

- A. All-inclusive Multi-System Software License
- B. Fibre channel Bridges to connect the disk shelves
- C. Additional HPE 3PAR system as quorum witness

D. Dark fibre connection between the sites

Answer: A

QUESTION 60 What is one of the advantages of protecting HPE 3PAR File Persona with RMC?

- A. MS SQL data consistency is provided
- B. Single file recovery is possible
- C. Transparent failover is offered If clients are using SMB 3.0, even if you recover to another 3PAR
- D. Backup throughput will be considerably faster than other backup methods

Answer: D

Killexams.com is a leading online platform specializing in high-quality certification exam preparation. Offering a robust suite of tools, including MCQs, practice tests, and advanced test engines, Killexams.com empowers candidates to excel in their certification exams. Discover the key features that make Killexams.com the go-to choice for exam success.

Exam Questions:

Killexams.com provides exam questions that are experienced in test centers. These questions are updated regularly to ensure they are up-to-date and relevant to the latest exam syllabus. By studying these questions, candidates can familiarize themselves with the content and format of the real exam.

Exam MCQs:

Killexams.com offers exam MCQs in PDF format. These questions contain a comprehensive collection of questions and answers that cover the exam topics. By using these MCQs, candidate can enhance their knowledge and improve their chances of success in the certification exam.

Practice Test:

Killexams.com provides practice test through their desktop test engine and online test engine. These practice tests simulate the real exam environment and help candidates assess their readiness for the actual exam. The practice test cover a wide range of questions and enable candidates to identify their strengths and weaknesses.

Guaranteed Success:

Killexams.com offers a success guarantee with the exam MCQs. Killexams claim that by using this materials, candidates will pass their exams on the first attempt or they will get refund for the purchase price. This guarantee provides assurance and confidence to individuals preparing for certification exam.

Updated Contents:

Killexams.com regularly updates its question bank of MCQs to ensure that they are current and reflect the latest changes in the exam syllabus. This helps candidates stay up-to-date with the exam content and increases their chances of success.
