Based on the Enforcement Policy configuration, when a user with Role Engineer connects to the network and the posture token assigned is Unknown, which Enforcement Profile will be applied?

- A. RestrictedACL
- B. HR VLAN
- C. Remote Employee ACL
- D. [Deny Access Profile]
- E. EMPLOYEE\_VLAN

Answer: D

### Question: 53

A customer wants to make enforcement decisions during 802.1x authentication based on a client's OnGuard posture token. What enforcement profile should be used in the health check service?

- A. Quarantine VLAN
- B. RADIUS CoA
- C. RADIUS Accept
- D. RADIUS Reject
- E. Full Access VLAN.

Answer: B

### Question: 54

Which authorization servers are supported by ClearPass? (Choose two.)

- A. Active Directory
- B. Cisco Controller
- C. Aruba Controller
- D. LDAP server
- E. Aruba Mobility Access Switch

Answer: AD

### Question: 55

Refer to the exhibit.

RADIUS Attributes ✕

Vendor Name:
Aruba (14823)

| #   | Attribute Name        | ID  | Type       | In/Out |
|-----|-----------------------|-----|------------|--------|
| 1.  | Aruba-User-Role       | 1.  | Unsigned32 | in out |
| 2.  | Aruba-User-Vlan       | 2.  | Unsigned32 | in out |
| 3.  | Aruba-Priv-Admin-User | 3.  | String     | in out |
| 4.  | Aruba--Admin-Role     | 4.  | String     | in out |
| 5.  | Aruba-Essid-Name      | 5.  | String     | in out |
| 6.  | Aruba-Location-Id     | 6.  | String     | in out |
| 7.  | Aruba-Port-Id         | 7.  | String     | in out |
| 8.  | Aruba-Template-User   | 8.  | String     | in out |
| 9.  | Aruba-Named-Vlan      | 9.  | String     | in out |
| 10. | Aruba-AP-Group        | 10. | String     | in out |

In the Aruba RADIUS dictionary shown, what is the purpose of the RADIUS attributes?

- A. to send information via RADIUS packets to Aruba NADs
- B. to gather and send Aruba NAD information to ClearPass
- C. to send information via RADIUS packets to clients
- D. to gather information about Aruba NADs for ClearPass
- E. to send CoA packets from ClearPass to the Aruba NAD

Answer: C

#### Question: 56

A bank would like to deploy ClearPass Guest with web login authentication so that their customers can self-register on the network to get network access when they have meetings with bank employees. However, they're concerned about security.

What is true? (Choose three.)

- A. If HTTPS is used for the web login page, after authentication is completed guest Internet traffic will all be encrypted as well.
- B. During web login authentication, if HTTPS is used for the web login page, guest credentials will be encrypted.
- C. After authentication, an IPSEC VPN on the guest's client be used to encrypt Internet traffic.
- D. HTTPS should never be used for Web Login Page authentication.
- E. If HTTPS is used for the web login page, after authentication is completed some guest Internet traffic may be unencrypted.

Answer: BCE

#### Question: 57

Refer to the exhibit.

Which statement accurately describes the cp82 ClearPass node? (Choose two.)

- A. It stays as a Subscriber when the Publisher fails.**
- B. It becomes the Publisher when the primary Publisher fails.**
- C. It operates as a Publisher in a separate cluster when the Publisher is active.**
- D. It operates as a Publisher in the same cluster as the primary Publisher when the primary is active.**
- E. It operates as a Subscriber when the Publisher is active.**

Answer: AE

### Question: 58

A customer with an Aruba Controller wants to set it up to work with ClearPass Guest.

How should they configure ClearPass as an authentication server in the controller so that guests are able to authenticate successfully?

- A. Add ClearPass as RADIUS CoA server.**
- B. Add ClearPass as a TACACS+ authentication server.**
- C. Add ClearPass as a RADIUS authentication server.**
- D. Add ClearPass as a HTTPS authentication server.**

Answer: A

Killexams.com is a leading online platform specializing in high-quality certification exam preparation. Offering a robust suite of tools, including MCQs, practice tests, and advanced test engines, Killexams.com empowers candidates to excel in their certification exams. Discover the key features that make Killexams.com the go-to choice for exam success.

## Exam Questions:

Killexams.com provides exam questions that are experienced in test centers. These questions are updated regularly to ensure they are up-to-date and relevant to the latest exam syllabus. By studying these questions, candidates can familiarize themselves with the content and format of the real exam.

## Exam MCQs:

Killexams.com offers exam MCQs in PDF format. These questions contain a comprehensive collection of questions and answers that cover the exam topics. By using these MCQs, candidate can enhance their knowledge and improve their chances of success in the certification exam.

## Practice Test:

Killexams.com provides practice test through their desktop test engine and online test engine. These practice tests simulate the real exam environment and help candidates assess their readiness for the actual exam. The practice test cover a wide range of questions and enable candidates to identify their strengths and weaknesses.

## Guaranteed Success:

Killexams.com offers a success guarantee with the exam MCQs. Killexams claim that by using this materials, candidates will pass their exams on the first attempt or they will get refund for the purchase price. This guarantee provides assurance and confidence to individuals preparing for certification exam.

## Updated Contents:

Killexams.com regularly updates its question bank of MCQs to ensure that they are current and reflect the latest changes in the exam syllabus. This helps candidates stay up-to-date with the exam content and increases their chances of success.
