Juniper

# JN0-1302

Data Center Design Specialist (JNCDS-DC)

Question: 45

Exhibit.

After several design meetings with the WAN team. EVPN MPLS will be deployed as the Data Center Interconnect protocol

What should be enabled on the MX Series routers to support transporting traffic between DC-A and DC-B as shown in the exhibit?

- A. CGNAT
- B. fragmentation
- C. OVSDB
- D. stitching

Answer: D

**Question: 46**

When using BGP Layer 2 VPN for a Data Center Interconnect, which statement about MAC learning is correct?

- A. MAC learning is not used.
- B. Management plane MAC learning is used.
- C. Data plane MAC learning is used.
- D. Control plane MAC learning is used

**Answer: B**

**Question: 47**

Which two Junos components does cRPD contain? (Choose two.)

- A. Kubernetes
- B. RIB
- C. Kernel
- D. MGD

**Answer: B,D**

**Question: 48**

What are two considerations when designing an IP fabric? (Choose two)

- A. Uplinks from servers to the leaf nodes should be 40GbE links
- B. All spine nodes should be the same type of device
- C. Leaf nodes and spine nodes should be the same type of device
- D. Every leaf node should have an uplink to every spine node

**Answer: C,D**

**Question: 49**

Which data center architecture is open, flexible, and uses Layer 3 only?

- A. STP
- B. IP fabric
- C. virtual chassis
- D. MC-LAG

**Answer: D**

**Question: 50**

Exhibit.

You are designing a data center where all your servers in each rack will be connected to two top-of-rack (ToR) switches using Layer 2 as shown in the exhibit. You must implement a high availability solution that maintains link layer connectivity to each server when one of the ToR switches fails.

In this scenario, which solution will accomplish this task?

- A. non-stop bridging (NSB)
- B. chassis cluster with LAG
- C. bidirectional forwarding detection (BFD)
- D. Virtual Chassis with LAG

**Answer:** B

**Question:** 51

You are implementing a new data center and need to plan to connect it to your existing data center. You have the requirement for active/active forwarding to enable load balancing and reduce failure times.

Which two technologies should be evaluated for this design? (Choose two.)

- A. point-to-point links
- B. Layer 2 VPN
- C. VPLS
- D. CVPN

**Answer:** A,C

**Question: 52**

Which two features add NGFW capabilities to a traditional security device” (Choose two)

- A. IPS
- B. UTM
- C. IP filters
- D. NAT

**Answer:** B,C

**Question: 53**

You must deploy a solution within your data center that will provide capacity planning for your virtual machine environment.

In this scenario, which Juniper Networks solution would accomplish this task?

- A. Contrail Cloud
- B. Juniper Secure Analytics
- C. Contrail Insights
- D. Junos Space

**Answer:** A

**Question: 54**

Exhibit.

For a fully configured and functional IP fabric underlay as shown in the exhibit, how many external BGP neighbors are expected to be in the established state for Spine 1?

- A. 5
- B. 2
- C. 4
- D. 3

**Answer:** C

**Question:** 55

When using VPLS for a Data Center Interconnect, which statement about MAC learning is correct?

- A. Management plane MAC learning is used
- B. Data plane MAC learning is used.
- C. MAC learning is not used.
- D. Control plane MAC learning is used

**Answer:** C

Killexams.com is a leading online platform specializing in high-quality certification exam preparation. Offering a robust suite of tools, including MCQs, practice tests, and advanced test engines, Killexams.com empowers candidates to excel in their certification exams. Discover the key features that make Killexams.com the go-to choice for exam success.

## Exam Questions:

Killexams.com provides exam questions that are experienced in test centers. These questions are updated regularly to ensure they are up-to-date and relevant to the latest exam syllabus. By studying these questions, candidates can familiarize themselves with the content and format of the real exam.

## Exam MCQs:

Killexams.com offers exam MCQs in PDF format. These questions contain a comprehensive collection of questions and answers that cover the exam topics. By using these MCQs, candidate can enhance their knowledge and improve their chances of success in the certification exam.

## Practice Test:

Killexams.com provides practice test through their desktop test engine and online test engine. These practice tests simulate the real exam environment and help candidates assess their readiness for the actual exam. The practice test cover a wide range of questions and enable candidates to identify their strengths and weaknesses.

## Guaranteed Success:

Killexams.com offers a success guarantee with the exam MCQs. Killexams claim that by using this materials, candidates will pass their exams on the first attempt or they will get refund for the purchase price. This guarantee provides assurance and confidence to individuals preparing for certification exam.

## Updated Contents:

Killexams.com regularly updates its question bank of MCQs to ensure that they are current and reflect the latest changes in the exam syllabus. This helps candidates stay up-to-date with the exam content and increases their chances of success.
