Question: 92

Magento 2's architecture uses code to bootstrap a custom module that resides in app/code. What two files are required to make a module usable? (Choose two.)

- A. Helper/Data.php**
- B. etc/config.xml**
- C. etc/module.xml**
- D. registration.php**

Answer: CD

Reference: <https://inchoo.net/magento-2/how-to-create-a-basic-module-in-magento-2/>

Question: 93

Assume that \$collection is a new instance of a class that extends Magento\Framework\Model\ResourceModel\Db\Collection\AbstractCollection, and \$ids is an array of ids. How do you select a list of records from the database where the record ids are in the \$ids list?

- A. \$collection->addFieldToFilter('record_id', ['in'=>\$ids]);**
- B.**

```
$collection->addFilter($filterBuilder  
    ->setType('in')  
    ->setValue($ids)  
    ->create()  
);
```

where \$filterBuilder is an instance of a \Magento\Framework\Api\FilterBuilder class.

- C. \$collection->in(\$ids);**
- D. \$collection->filterIn(\$ids);**

Answer: A

Reference: <https://magento.stackexchange.com/questions/121040/how-to-get-product-collections-by-set-of-ids-in-magento-2>

Question: 94

While reviewing a layout file named sales_order_view.xml you notice the element <update handle="customer_account"/>. What is the purpose of this element?

- A. Replaces the customer_account handle with sales_order_view**
- B. Nothing, this element has been deprecated**
- C. Adds the customer_account handle to the page's handles list**
- D. Updates the current page handle to customer_account**

Answer: D

Reference: <https://magento.stackexchange.com/questions/236009/what-is-update-handle-customer-account>

Question: 95

How can you access the select query of a collection?

- A. You can only access the select query after the collection has been loaded by calling the public method query()**

- B. It is stored in a protected variable `$query` and can only be accessed from the inside of a collection class
- C. You can get it by using public method `getSelect()` which returns an instance of `MagentoFrameworkDBSelect`
- D. The select query is not available in the collection class, it will be generated by the MySQL adapter right before executing a query

Answer: C

Reference: <https://mage2.pro/t/topic/610>

Question: 96

You are developing a module `MyCompany_StoreInfo` to display information about brick and mortar stores on a frontend page. The displayed information varies based on the country of a given store.

What two elements automatically render their children? (Choose two.)

- A. `<block class="MagentoFrameworkViewElementAbstractBlock" name="shop.info.details"/>`
- B. `<block class="MagentoFrameworkViewElementTemplate" name="shop.info.details"/>`
- C. `<container name="shop.info.details"/>`
- D. `<block class="MagentoFrameworkViewElementTextListText" name="shop.info.details"/>`

Answer: BC

Reference: <https://magento.stackexchange.com/questions/202403/creating-a-new-container-and-placing-it-where-i-want-in-magento-2>

Question: 97

What is the connection between product attribute sets and categories?

- A. Categories have no connection to product attribute sets, and any product can be assigned to any category
- B. Each category is linked to a single product attribute set, and only products from that attribute set are allowed in the category
- C. Each category is linked to a single product attribute set, and only products from that category's set or any of its parent categories' sets are allowed
- D. Categories can be connected to multiple product attribute sets, and only products from one of those sets are allowed in the category

Answer: D

Reference: <https://www.cloudways.com/blog/configuring-product-attribute-sets-in-magento/>

Question: 98

You have created a new section in system configuration under the Catalog tab:

```
<section id="mysection" translate="label" sortOrder="90" showInDefault="1" showInWebsite="1"
showInStore="1">
    <label>My Section</label>
    <tab>catalog</tab>
    ...
</section>
```

How do you restrict an access to the section using Magento ACL?

A.

In the system.xml file add resource node:

```
<section id="mysection" translate="label" sortOrder="90" showInDefault="1" showInWebsite="1"
showInStore="1">
    <label>My Section</label>
    <tab>catalog</tab>
    <resource>MyCompany_MyModule::mysection</resource>
    ...
</section>
```

B.

In the file etc/acl.xml create a resource entry:

```
Magento_Backend::admin > Magento_Backend::stores >
    Magento_Backend::stores_settings > Magento_Config::mysection
```

C.

In the etc/adminhtml/routes.xml add:

```
<router id="admin">
    <route id="catalog" frontName="mysection">
        <module name="MyCompany_MyModule" before="Magento_Backend" />
        <resource>MyCompany_MyModule::mysection</resource>
    </route>
</router>
```

D.

In the etc/adminhtml/menu.xml specify:

```
<add id="MyCompany_MyModule::mysection" title="My Section" translate="title"
    module="MyCompany_MyModule" sortOrder="10"
    parent="Magento_Config::stores_settings"
    action="system_config/edit/section/mysection/"
    resource="MyCompany_MyModule::mysection"
/>
```

Answer: B

Reference: <https://www.mageplaza.com/magento-2-module-development/magento-2-acl-access-control-lists.html>

Question: 99

A module you are working on needs to send a newsletter to all subscribed customers at predefined intervals.

Which two actions do you take to make sure the newsletter is sent? (Choose two.)

- A. Implement MyCompanyMyModuleCronNewsLetterSender::execute and register it in etc/crontab/di.xml
- B. Implement MyCompanyMyModuleCronNewsLetterSender::execute and register it in etc/crontab/.xml
- C. Make sure bin/magento cron:run is added to the system crontab
- D. Register the plugin for MagentoCustomerModelCustomer::authenticate in etc/crontab.xml

Answer: BC

Question: 100

You are setting up a brand new Magento installation for a merchant who is migrating from Magento 1 to Magento 2. Keeping in mind upgradability and the need to customize, which one do you choose?

- A. Create a new Magento instance using composer create-project
- B. Clone the magento/magento2 GitHub repository
- C. Run php bin/magento setup:migrate <path-to-m1-installation> <new-version> command
- D. Create a new Magento instance by using the bin/magento install command

Answer: C

Question: 101

- A. One shipping address per line item is possible**
- B. Only one shipping address per order is possible**
- C. One shipping address per unit of quantity is possible**
- D. One shipping address per product type is possible**

Answer: B

Reference: https://docs.magento.com/m2/ce/user_guide/sales/checkout-step1-shipping.html

Killexams.com is a leading online platform specializing in high-quality certification exam preparation. Offering a robust suite of tools, including MCQs, practice tests, and advanced test engines, Killexams.com empowers candidates to excel in their certification exams. Discover the key features that make Killexams.com the go-to choice for exam success.

Exam Questions:

Killexams.com provides exam questions that are experienced in test centers. These questions are updated regularly to ensure they are up-to-date and relevant to the latest exam syllabus. By studying these questions, candidates can familiarize themselves with the content and format of the real exam.

Exam MCQs:

Killexams.com offers exam MCQs in PDF format. These questions contain a comprehensive collection of questions and answers that cover the exam topics. By using these MCQs, candidate can enhance their knowledge and improve their chances of success in the certification exam.

Practice Test:

Killexams.com provides practice test through their desktop test engine and online test engine. These practice tests simulate the real exam environment and help candidates assess their readiness for the actual exam. The practice test cover a wide range of questions and enable candidates to identify their strengths and weaknesses.

Guaranteed Success:

Killexams.com offers a success guarantee with the exam MCQs. Killexams claim that by using this materials, candidates will pass their exams on the first attempt or they will get refund for the purchase price. This guarantee provides assurance and confidence to individuals preparing for certification exam.

Updated Contents:

Killexams.com regularly updates its question bank of MCQs to ensure that they are current and reflect the latest changes in the exam syllabus. This helps candidates stay up-to-date with the exam content and increases their chances of success.
