*IBM Tivoli Monitoring V6.2.2 Implementation*

<http://killexams.com/pass4sure/exam-detail/000-538>

**Answer:** D

**QUESTION:** 105

How is the Agent Management Services (AMS) watchdog process disabled?

- A. use the command tacmd stopWatchdog
- B. use the AMS Stop Management take action
- C. start the disableWatchdog Policy using the Tivoli Enterprise Portal
- D. update the kfwwp.cfg file and then issue the command tacmd refreshWD

**Answer:** B

**QUESTION:** 106

Which two IBM Tivoli Monitoring components and configurations must be checked if historical data is only available for certain monitored objects? (Choose two.)

- A. Confirm the specific attribute group is being collected.
- B. Confirm the historical data time span is properly configured.
- C. Confirm the Warehouse Proxy Agent is properly configured.
- D. Confirm the collection is distributed to the related managed system.
- E. Confirm the Summarization and Pruning Agent is properly configured.

**Answer:** A, D

**QUESTION:** 107

A Tivoli Enterprise Portal Server (TEPS) is running on the server portal01. Users are unable to connect to the TEPS server with the Java Web Start Client and the error message says:KFWITM009I The Tivoli Enterprise Portal Server is still being initialized and is not ready for communications. Which log file contains additional details?

- A. <ITM HOME>/logs/portal01\_hd\_4\*.log
- B. <ITM HOME>/logs/portal01\_cq\_4\*.log
- C. <ITM HOME>/logs/portal01\_ms\_4\*.log
- D. <ITM HOME>/logs/portal01\_cms\_4\*.log

**Answer:** B

**QUESTION:** 108

An IBM Tivoli Monitoring V6.2.2 environment with one Linux agent is connected to a remote Tivoli Enterprise Portal Server (TEPS) which is connected to the Hub Tivoli EnterpriseMonitoring Server (TEMS). A Linux OS workspaces in the Physical View is not displaying data and an SQL error message is displayed in the status area of the view. What could be the cause of this problem?

- A. The application support was not installed on the agent's server.
- B. The query may have filter conditions set too strict causing no rows to be returned.
- C. The application support for the Linux OS agent was never installed at the Hub TEMS.
- D. The version of the klz.cat and klz.atr files installed at the Tivoli Enterprise Portal Server does not match the version installed at the Hub TEMS.

**Answer:** D

**QUESTION:** 109

What turns on a trace for a Tivoli Enterprise Monitoring Server (TEMS) without having to restart the TEMS?

- A. pdcollect
- B. Agent Management Services
- C. IBM Tivoli Monitoring Service Console
- D. Manage Tivoli Enterprise Monitoring Services

**Answer:** C

**QUESTION:** 110

An administrator is given the task to monitor for a specific logical disk name on a specific server name and to trigger a situation if there is less than 5% free space. Which expressions give the best performance for that situation?

- A. Server Name = testserver01 AND Logical Disk Name = C AND % Free < 5
- B. Logical Disk Name = C AND % Free < 5 AND Server Name = testserver01
- C. % Free < 5 AND Logical Disk Name = C AND Server Name = testserver01
- D. Logical Disk Name = C AND Server Name = testserver01 AND % Free < 5

**Answer:** A

**QUESTION:** 111

For System MYSVA

Given the sample Tivoli Enterprise Portal view, values for attributes such as Job Name, ASID, and CPU Percent are retrieved from the monitoring agent because the attribute names are specified where?

- A. In a Query
- B. In a Policy
- C. In a Situation
- D. In a Navigator

**Answer:** A

**QUESTION:** 112

What are three areas where user access settings can be set when using the Administer Users function? (Choose three.)

- A. Applications
- B. Permissions
- C. Navigator Views
- D. User Workspaces
- E. Password Settings
- F. LDAP Configuration

**Answer:** A, B, C

**QUESTION:** 113

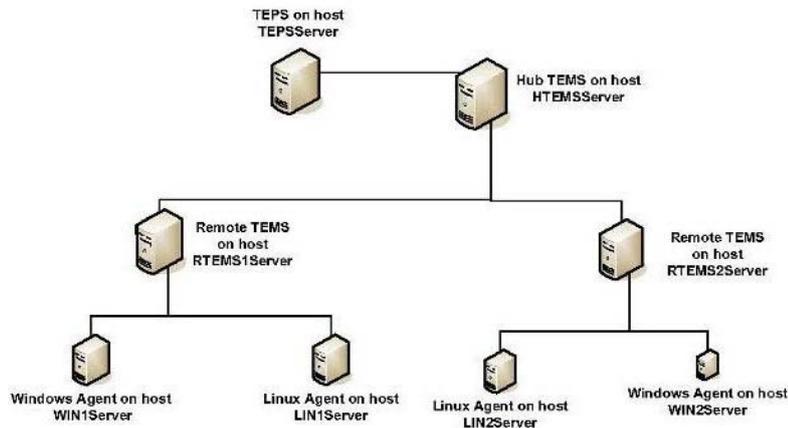

A consultant is at a customer's site and is required to make a change. The consultant needs to backup the existing situations with which command?

- A. tacmd bulkExportSit
- B. itmcmd bulkExportSit
- C. tacmd execute bulkExportSit
- D. itmcmd execute bulkExportSit

**Answer:** A

**QUESTION:** 114

Click the Exhibit button.

Based on the topology, if a situation becomes true on the WIN2Server then a Take Action command could execute at which two possible locations? (Choose two.)

- A. WIN2Server
- B. TEPServer
- C. HTEMSServer
- D. RTEMS1Server
- E. RTEMS2Server

**Answer:** A, E

**QUESTION:** 115

A customer does not need data for a selected group of servers. What could be done to improve performance?

- A. remove \$NODE\$ from the query filter specifications
- B. filter the view to remove the selected group of servers
- C. create a Managed System List and use it for the distribution of the queries
- D. configure the selected group of servers to report to a separate remote Tivoli Enterprise Monitoring Server (TEMS) instead of the Hub TEMS

**Answer:** C

**QUESTION: 116**

Which two conditions can be selected when creating a situation? (Choose two.)

- A. Agent Comparison
- B. Group Comparison
- C. Attribute Comparison
- D. Situation Comparison
- E. Workflow Comparison

**Answer: C, D**

**QUESTION: 117**

A user is having difficulty modifying a customized query that was created by another user. What could be causing the problem?

- A. The user must use filters instead of modifying queries.
- B. Queries are saved locally and the query is owned by another user.
- C. The user does not have the required authority to be able to modify queries.
- D. The query is being used by other views which are read-only and cannot be modified.

**Answer: C**

**QUESTION: 118**

What are the User ID and password requirements when logging into a Tivoli Enterprise Portal (TEP) when the Validate User is selected in the Hub Tivoli Enterprise Monitoring Server (TEMS) configuration and LDAP is not being used?

- A. The same user ID must be defined, including a password, on the operating system where the Hub TEMS is installed.
- B. The same user ID must be defined, including a password, in the Tivoli Enterprise Portal Server (TEPS) database, using the command `tacmd addUserCredentials`.
- C. The same user ID must be defined, including a password, on the operating system where the TEPS is installed.
- D. The same user ID must be defined, including a password on, the operating system where the Hub TEMS is installed and also on all remote TEMS servers.

**Answer: A**

**QUESTION: 119**

What is a requirement for a customized workspace to be available to all Tivoli Enterprise Portal users?

- A. The workspace must be saved in read-only mode.
- B. The workspace must be saved as part of a custom navigator.
- C. The workspace must be saved as part of the physical navigator.
- D. The workspace must be saved while in Workspace Administration mode.

**Answer:** D

**QUESTION:** 120

Which command makes a backup of the Tivoli Enterprise Portal Server configuration on a UNIX server?

- A. tacmd cq "runscript.sh migrate-export.sh"
- B. itmcmd cq "runscript.sh migrate-export.sh"
- C. tacmd execute cq "runscript.sh migrate-export.sh"
- D. itmcmd execute cq "runscript.sh migrate-export.sh"

**Answer:** D
