# 1Z0-567

*Primavera P6 Enterprise Project Portfolio Management  
8 Essentials*

<http://killexams.com/pass4sure/exam-detail/1Z0-567>

**QUESTION: 80**

Identify three types of activity codes.

- A. Global
- B. Activity
- C. Project
- D. EPS
- E. WBS
- F. Resource

**Answer:** A, C, D

**Explanation:**

Note: Global Activity Codes (but not Project-level or ESP-level) that may be created at any time and applied to any project.

**QUESTION: 81**

Identify the key benefit of the Plan Resources view.

- A. You can create resource staffing scenarios using waterline analysis.
- B. You can identify staffing shortfalls within detailed project plans.
- C. You can view and analyze resource allocation without assignments to activities.
- D. You can view and assign resources mapped to appropriate roles with the highest skills.

**Answer:** C

**Explanation:**

Note:

\* You can delete a financial period that has high-level assignment planning values (as entered on the Plan Resources page of P6) as long as the financial period does not contain past period actuals. When you delete a financial period that has high-level assignment planning values, the values are deleted as well.

\* View options for including assignments made in the Plan Resources view in other allocation related view in Primavera

**QUESTION: 82**

Select the true statement regarding project security profiles.

- A. Project security profiles define the weight of project codes.
- B. To receive a project security profile, a user must be defined as a resource.
- C. Project security profiles override global security profiles.

D. To access projects, a user must be assigned a project security profile.

**Answer:** D

**Explanation:**

Project profiles

Define a user's access to project-specific information. The Project Management module does not require that each user be assigned a project profile; however, users cannot access projects unless they are assigned a project profile or the global profile, Admin Superuser.

Note:

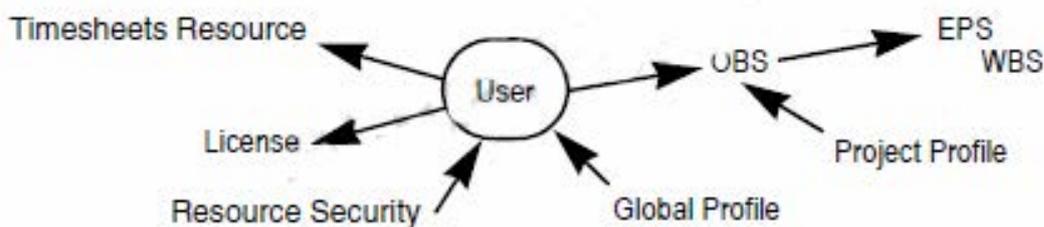

To ensure security at various levels of data, the Project Management module provides two sets of security profiles:

\* Global profiles

Define a user's access to application-wide information and settings, such as the enterprise project structure (EPS), resources, roles, and cost accounts. Each user must be assigned a global profile. (B)

\*

Note 1: The following diagram illustrates the relationships between a user, the OBS, EPS, and WBS.

Note 2: Users in Primavera P6 require two different profiles to control what they can do in the system; a Global Security Profile and a Project Security Profile.

**QUESTION:** 83

Identify the true statement regarding Schedule Checker.

- A. Before running Schedule Checker, you should schedule the project.
- B. Schedule Checker evaluates the WBS structure to demonstrate standards compliance.
- C. Schedule Checker is run from the Portfolios section.
- D. Run Schedule Checker before scheduling the project to fix issues.

**Answer:** B, C, D

**Explanation:**

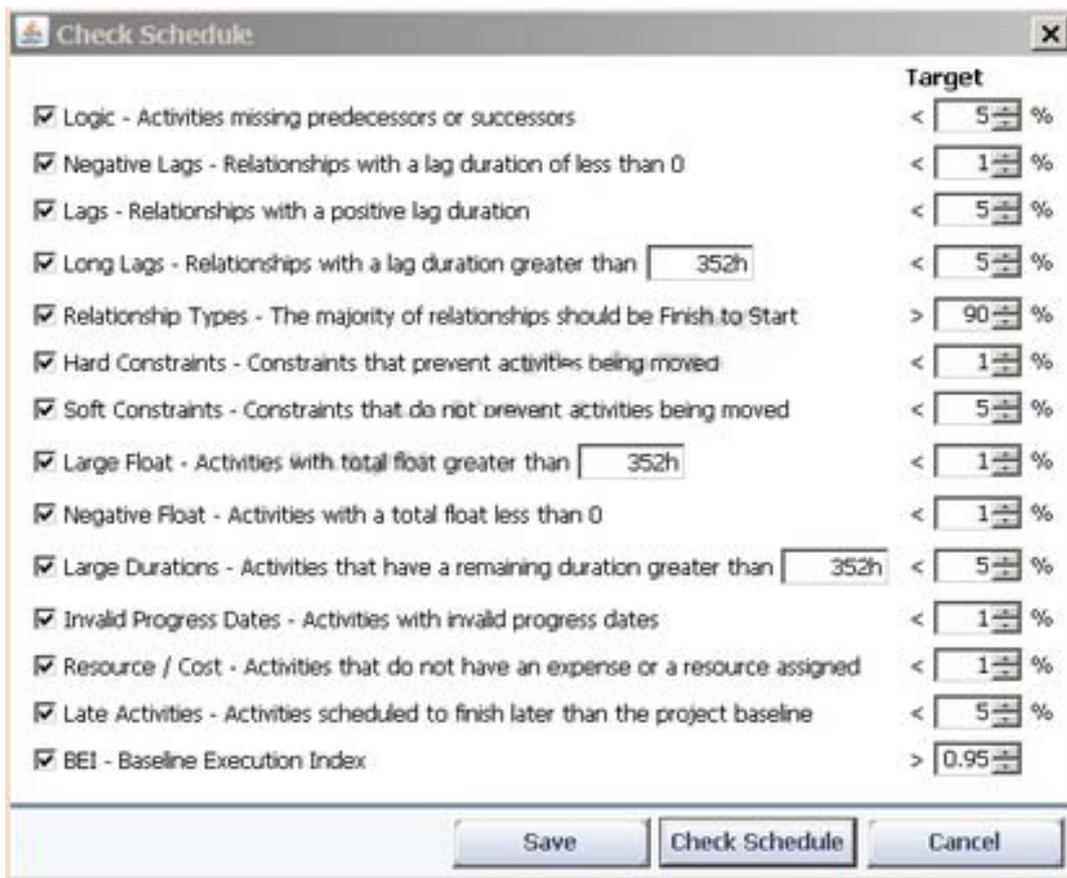

Note: The new schedule checker is a tool that assists planners, project managers and the PMO to ensure project plans are built within the guidelines of industry and organizational

best practices. The schedule checker performs a 14-point analysis to ensure that activities and dependencies of the project schedule are following desired standards. The schedule checker adheres to the DCMA

14-point assessment check and produces a report that lists all opportunities for corrective action or improvement when aspects of the project schedule fall outside the quality guidelines. The report includes a summary and detailed sections displaying activities falling outside your configured thresholds.

Note 2: The Schedule Checker can be run against one or multiple projects. You can save the thresholds to run again for the project that is open.

The first thing to do is set up the 14 Configurable User Thresholds. See figure below.

Example of output.

Shown below is the top half of the Schedule Check Summary Report.

**Schedule Check Report created on 25-Apr-12**

▼ Projects checked

Project ID	Project Description	Data Date	Total Activities	Complete Activities	Total Links
GD10-T	2010 Gas Desulfurization Unit Appx 50% Completed	28-Oct-10	3135	1581	3485

▶ Projects checked have links to the following Closed Projects

▼ Check Summary

Check	Description	Target	Actual	Found	Total
Logic	Activities missing predecessors or successors	< 5%	1%	20	1554
Negative Lags	Relationships with a lag duration of less than 0	< 1%	0%	0	2004
Positive Lags	Relationships with a positive lag duration	< 5%	0%	0	2004
Long Lags	Relationships with a lag duration greater than 352 hours	< 5%	0%	0	2004
Relationship Types	The majority of relationships should be Finish to Start	> 90%	89%	1784	2004
Hard Constraints	Constraints that prevent activities being moved	< 1%	0%	0	1554
Soft Constraints	Constraints that do not prevent activities being moved	< 5%	0%	1	1554
Large Float	Activities with total float greater than 352 hours	< 1%	18%	276	1554
Negative Float	Activities with a total float less than 0	< 1%	0%	0	1554
Large Durations	Activities that have a remaining duration greater than 352 hours	< 5%	0%	0	1548
Invalid Progress Dates (before the data date)	Incomplete activities before the data date	< 1%	0%	0	1558
Invalid Progress Dates (after the data date)	Activities with actual dates after the data date	< 1%	0%	4	1558
Resource / Cost	Activities that do not have an expense or a resource assigned	< 1%	0%	1	3123
Late Activities	Activities scheduled to finish later than the project baseline	< 5%	2%	34	1548
BEI	Baseline Execution Index	> 0.95	1.01	-	-

▶ Logic - Activities missing predecessors or successors

▶ Negative Lags - Relationships with a lag duration of less than 0

▶ Lags - Relationships with a positive lag duration

▶ Long Lags - Relationships with a lag duration greater than 352 hours

▶ Relationship Types - The majority of relationships should be Finish to Start

▶ Hard Constraints - Constraints that prevent activities being moved

▶ Soft Constraints - Constraints that do not prevent activities being moved

Project ID	Activity ID	Activity Description	Constraint Type	Constraint Date	Position
GD10-T	GDCOMP003	Complete TA 2010 GDU	Finish On or Before	12-Nov-10	Primary

▶ Large Float - Activities with total float greater than 352 hours

▶ Negative Float - Activities with a total float less than 0

▶ Large Durations - Activities that have a remaining duration greater than 352 hours

▶ Invalid Progress Dates - Incomplete activities before the data date

▶ Invalid Progress Dates - Activities with actual dates after the data date

Project ID	Activity ID	Activity Description	Data Date	Actual Start	Actual Finish
GD10-T	GD6001SHU-190	Remove Scaffolding	28-Oct-10	15-Nov-10	15-Nov-10
GD10-T	GD6003SHU-220	Remove scaffolding	28-Oct-10	15-Nov-10	15-Nov-10
GD10-T	GD6005SHU-220	Remove scaffolding	28-Oct-10	15-Nov-10	15-Nov-10
GD10-T	GD6010-220	Remove scaffolding	28-Oct-10	15-Nov-10	15-Nov-10

▶ Resource / Cost - Activities that do not have an expense or a resource assigned

▶ Late Activities - Activities scheduled to finish later than the project baseline

▶ BEI - Activities with no project baseline finish date

▶ Links to Closed Projects - Activities with links to closed projects

**QUESTION: 84**

The two global profiles that are hard-coded in the system and cannot be deleted or changed \_\_\_\_\_ and \_\_\_\_\_.

- A. Project Manager
- B. System Administrator
- C. IT Administrator
- D. Admin Super User
- E. Resource Manager

F. No Global Privileges

**Answer:** D, F

**Explanation:**

In addition to any global profiles that you define, P6 provides two predefined global profiles: Admin Superuser and No Global Privileges.

**Reference:**

Application Level Security
