QUESTION: 43

Which functions are available within HP Remote Monitoring (RM)?

- A. proactive fault detection for all printers and MFPs
- B. automatic supplies ordering for all HP devices supporting RM
- C. automatic renewal of the contract, including add-ons
- D. reconciliation at the end of the year for the HP Level Pay billing

Answer: A

QUESTION: 44

What is HP Digital Sending Software?

- A. cloud-based digital sending functionality
- B. server-based digital sending functionality
- C. digital sending functionality that is embedded in an HP MFP scanner
- D. digital sending functionality that includes TWAIN scanning

Answer: B

Explanation:

When you streamline how your business handles documents and information, you can save time and improve productivity. HP Digital Sending Software (DSS) 5.0 is a server-based solution that enhances digital sending from HP LaserJet MFPs, HP digital senders, and HP Scanjet network devices.
