Question #109

You receive notification about a new malware that infects hosts. An infection results in the infected host attempting to contact a command-and-control server.

Which Security Profile detects and prevents this threat from establishing a command-and-control connection?

- A. Vulnerability Protection Profile applied to outbound Security policy rules.
- B. Anti-Spyware Profile applied to outbound security policies.
- C. Antivirus Profile applied to outbound Security policy rules
- D. Data Filtering Profile applied to outbound Security policy rules.

Answer: B

Question #110

Which statement is true regarding a Best Practice Assessment?

- A. It runs only on firewalls.
- B. It shows how current configuration compares to Palo Alto Networks recommendations.
- C. When guided by an authorized sales engineer, it helps determine the areas of greatest risk where you should focus prevention activities.
- D. It provides a set of questionnaires that help uncover security risk prevention gaps across all areas of network and security architecture.

Answer: B

Question #111

The PowerBall Lottery has reached an unusually high value this week. Your company has decided to raise morale by allowing employees to access the PowerBall Lottery website (www.powerball.com) for just this week. However, the company does not want employees to access any other websites also listed in the URL filtering 'gambling' category. Which method allows the employees to access the PowerBall Lottery website but without unblocking access to the 'gambling' URL category?

- A. Add just the URL www.powerball.com to a Security policy allow rule.
- B. Manually remove powerball.com from the gambling URL category.
- C. Add *.powerball.com to the URL Filtering allow list.
- D. Create a custom URL category, add *.powerball.com to it and allow it in the Security Profile.

Answer: CD

Question #112

Which Palo Alto Networks service protects cloud-based applications such as Dropbox and Salesforce by monitoring permissions and shares and scanning files for sensitive information?

- A. Prisma SaaS
- B. AutoFocus
- C. Panorama
- D. GlobalProtect

Answer: A
